### **The Friday Chaburah – Rabbi Michoel Glass: 9.30-11.30am**

The aim of the Friday Chabura is to give a basic understanding of the main sugyos (topics) regarding pertinent halachos and not just knowing the basic halachah. This is achieved through learning the relevant gemaros and mefarshim with chavrusos - marei mekomos provided. The learning seder is followed by a shiur with the goal to clarify the sugya and add some further understanding. During the second part of the shiur some of the basic halachos that arise from the sugya learnt that week are presented.

During Elul the chaburah will be focusing on the halachos of Sukkah.
